

Understanding EOB Terminology and Searching Vendor Websites

Basic Insurance Definitions

Allowable Charge

(Also referred to as the *Allowed Amount*, *Approved Charge* or *Maximum Allowable*)

This is the dollar amount typically considered payment-in-full by an insurance company and an associated network of healthcare providers. The Allowable Charge is typically a discounted rate rather than the actual charge.

Allowed Amount Example

Example

Scenario : You visit the doctor for an earache. The total charge for the visit comes to \$100.

- If the doctor is an in-network provider, he or she is required to accept \$80 (negotiated fee) as payment-in-full for the visit. **This is the Allowable Charge.** The remaining \$20 is considered provider write-off, for which you cannot be billed.
- After you pay your co-payment/co-insurance, the health insurance plan will pay the remaining balance.

Doctor Visit for Earache

Cost of visit	\$100
Negotiated Fee (Allowable Charge)	\$80
Doctor Write Off	\$20

NOTE: If the doctor is an out-of-network provider then you will be held responsible for the amount your health insurance company will not pay, up to the full charge of \$100.

Basic Definitions - Continued

Deductible

The amount you owe for eligible healthcare services before your health insurance plan begins to pay.

Deductible Example

Example

Scenario: If your deductible is \$1000, your plan won't pay anything until you've met your deductible for covered healthcare services.

Cost of Services	\$1350
Member Deductible Paid	\$1000
Amount covered for eligible healthcare services	\$350

NOTE: The deductible may not apply to all services

Basic Definitions - Continued

Co-insurance

The cost a member pays for a covered healthcare service. This cost is calculated as a percent of the allowed amount for the service (i.e. 80/20%). The member pays co-insurance plus any deductibles owed.

Co-insurance Example

Example

Scenario: If the health insurance plan's allowed amount for an office visit is \$100 and you've met your deductible, your co-insurance payment of 20% would be \$20. The health insurance plan pays the rest of the allowed amount.

Office Visit Allowed Amount	\$100
Member pays 20% after deductible is met	\$20
Health Insurance Plan pays 80%	\$80

Basic Definitions - Continued

Preferred Provider

A provider who has a contract with your health insurer or plan to provide services to you at a discount.

Check your policy to see if you can see all preferred providers or if your health insurance or plan has a “tiered” network and you must pay extra to see some providers.

Your health insurance or plan may have preferred providers who are also “participating” providers. Participating providers also contract with your health insurer or plan, but the discount may not be as great, and you may have to pay more.

Basic Definitions - Continued

Non-Preferred Provider

A provider who doesn't have a contract with your health insurer or plan to provide services to you.

You'll pay more to see a non-preferred provider. A non-preferred provider would be considered "out of network."
